Debut author a finalist in 3 Australian Romance Reader Awards

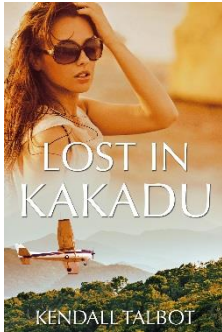

Being a debut novelist is exciting enough, but this hot new book, **Lost In Kakadu**, has also been nominated for three awards:

- Best Romantic Suspense
- Best New Author
- Best Book Cover

Since this book was released on 1st August 2013, *Lost In Kakadu* has also reached number 1 on the charts with both iTunes and Booktopia.

Action! Adventure! We see it in movies, we enjoy it in games, experience it in books. Set your heart racing, feel the breathlessness and savor the adrenalin rush as you ride the emotional rollercoaster.

Action/adventure is about fascinating characters who experience an exciting, danger fuelled journey. There's plenty of cliff hanger moments in action/adventure and just when you think it can't get any more exciting, it often does.

Kendall grew up watching Indiana Jones, Jurassic Park, Die Hard, all great action/adventure movies. She still loves them. They're the type of books she loves to read too and that's where her writing passion lies too.

Kakadu National Park was the perfect place for a survival story with a difference. With its 20,000 acres of pure Australian bush, abundance of wild animals and exotic setting, it's surprising *Lost In Kakadu* is the only romance book ever to be set in Kakadu National Park.
